Wm Jamison Papers

South Scituate Feb. 7 1841.

Brother Phelps.—

Yours of the 2d came to our Post-office in due time, but I was not at home, or you would have received an answer on the 5th.—

I have looked over my files of '37-'38 & '39. Each of them contains several letters from you. But I have found none in which there is any reference to Br Jamison's course, excepting the two which I send with this. Please to return them to me, when you have made the use of them, which you intend.— I have hoped ere this to learn, that you had got some trace of my manuscript Sermon. It is very strange what can have become of it.

Yours truly

Samuel J. May.—
